

Mounting Challenge headrest on carbon seat sheet 1/1

1. Place a white tape 6 cm (2,3") below the top of the seat
2. Align the bracket in the middle of the ribs and place a mark.
3. Make a hole with a 4.0 mm drill on the mark.
4. Place the bold and nut and tight it up.
5. Align the headrest between the ribs

6. Make the two other holes with a 4.0 mm drill. (do not remove the bracket)
7. Place the two other bolts and nuts and tight them up.
8. Adjust the headrest just under your helmet.
